

Student Activity Tracker

Parents/Observers or students log in daily and mark the student activity as Present, Excused, Unexcused, or Vacation.

On the Landing Page, choose **Student Activity Tracker**.

The **Attendance Tab** will display a Date and a Daily Code. Fill in the date and code each day.

Click on **Save Attendance Entry**.

The **Log** displays teacher activity tracking, such as notifications by email, phone call, or Live Lessons.

The Activity Tracker with the Log In report will determine the student attendance that is recorded at the school.
