

PK-12 Athletics Health and Safety Plan Template

The decision to resume sports-related activities, including conditioning, practices and games, is within the discretion of a school entity's governing body. Each school entity must develop and adopt an Athletics Health and Safety Plan aligning to the PDE Preliminary Guidance for Phased Reopening of Pre-K to 12 Schools prior to conducting sports-related activities with students. The plan must include the provisions of this guidance, be approved by the local governing body of the school entity, and be posted on the school entity's publicly available website. School entities should also consider whether the implementation of the plan requires the adoption of a new policy or revision of an existing policy.

Each school entity should continue to monitor its Athletics Health and Safety Plan throughout the year and update as needed. All revisions should be reviewed and approved by the governing body prior to posting on the school entity's public website.

All decision-makers should be mindful that as long as there are cases of COVID-19 in the community, there are no strategies that completely eliminate transmission risk within a school population. The goal is to keep transmission as low as possible to safely continue school activities. All school activities must be informed by [Governor Wolf's Process to Reopen Pennsylvania](#). The administration has categorized reopening into three broad phases: red, yellow, or green. These designations signal how counties and/or regions may begin easing some restrictions on school, work, congregate settings, and social interactions:

- Red Phase: Schools remain closed for in-person instruction and no sports are allowed in counties designated as being in the Red Phase.

- Yellow Phase and Green Phase: Schools may resume sports-related activities after developing a written Athletics Health and Safety Plan, to be approved by the local governing body (e.g. board of directors/trustees) and posted on the school entity's publicly available website.

Use this template to document your LEA's plan to bring back student athletes and coaching staff, how you will communicate the type with stakeholders in your community, and the process for continued monitoring of local health data to assess implications for school sports-related activity operations and potential adjustments throughout the school year.

Your school entity should account for changing conditions in your local Athletics Health and Safety Plan to ensure seamless transition from more to less restrictive conditions in each of the phase requirements as needed. Depending upon the public health conditions in any county within the Commonwealth, there could be additional actions, orders, or guidance provided by the Pennsylvania Department of Education (PDE) and/or the Pennsylvania Department of Health (DOH) designating the county as being in the red, yellow, or green phase. Some counties may not experience a straight path from a red designation, to a yellow, and then a green designation. Instead, cycling back and forth between less restrictive to more restrictive designations may occur as public health indicators improve or worsen.

Resuming PK-12 Sports-Related Activities

Key Questions

- How do you plan to bring student athletes and staff back to physical school buildings, particularly if social distancing is still required?
- How did you engage stakeholders in the decision to resume sports-related activities, including try-outs, conditioning, practices, and games?
- How will you communicate your plan to your local sports and school communities?
- Once you resume sports-related activities, what will the decision-making process look like to prompt a school closure or other significant modification to sports activities?

Anticipated launch date for sports related activities: August 24, 2020

These recommendations are based on the current guidelines characterized in the Green Phase. As more public health information is available, the administration may work with impacted entities to release further guidance which could impact fall, winter, or spring seasons. At this juncture, these guidelines apply to Athletics and Performing Arts with regard to in-season workout sessions that are not mandatory practices or public events. No spectators allowed.

INTRODUCTION

The COVID-19 pandemic has presented athletics across the world with a myriad of challenges. The COVID-19 virus is a highly contagious illness that primarily attacks the upper respiratory system. The virus that causes COVID-19 can infect people of all ages. Research from the Centers for Disease Control, among others, has found that while children do get infected by COVID-19, relatively few children with COVID-19 are hospitalized. However, some severe outcomes have been reported in children, and a child with a mild or even asymptomatic case of COVID-19 can spread the infection to others who may be far more vulnerable. While it is not possible to eliminate all risk of furthering the spread of COVID-19, the current science suggests there are many steps schools can take to reduce the risks to students, coaches, and their families.

The district will take the necessary precautions and recommendations from the federal, state, and local governments, CDC, PA DOH, as well as the NFHS and PIAA. The District realizes the knowledge regarding COVID-19 is constantly changing as new information and treatments become available. These recommendations will be adjusted as needed as new information becomes available in order to decrease the risk of exposure for our staff, students, and spectators.

RESUMPTION OF ATHLETIC ACTIVITIES

Recommendations for **ALL LEVELS** for Junior and Senior High Athletics

1. Athletes, Coaches, and Staff will undergo a COVID-19 health screening prior to any practice, event, or team meeting. The type of screening will be dependent upon the available resources and the Phase level. The purpose is to check for signs and symptoms of COVID-19. Non-touch temporal scan of a temperature higher than 100.4
2. Promote healthy hygiene practices such as hand washing (20 seconds with warm water and soap) and employees wearing a cloth face covering as feasible. (Face coverings are

recommended to help decrease potential exposure to COVID-19 respiratory droplets by an infected individual. Face Coverings will not be used for athletes while practicing or competing.) Hand Sanitizer will be available for team use as resources allow.

3. Intensify cleaning, disinfection, and ventilation in all facilities
4. Encourage social distancing through increased spacing, small groups, and limited mixing between groups, if feasible
5. Educate Athletes, Coaches, and Staff on health and safety protocols
6. Anyone who is sick must stay home
7. Plan in place if a student or employee gets sick
8. Regularly communicate and monitor developments with local authorities, employees, and families regarding cases, exposures, and updates to policies and procedures
9. Athletes and Coaches MUST provide their own water bottle for hydration. Water bottles must not be shared.
10. PPE (gloves, masks, eye protection) will be used as needed and situations warrant, or determined by local/state governments.
11. Identify Staff and students who may be at a higher risk of severe illness from COVID-19 due to underlying medical conditions. (See - CDC "People Who are at a Higher Risk for Severe Illness")

CLASSIFICATION OF SPORTS

High Risk: Sports that involve close, sustained contact between participants, lack of significant protective barriers, and high probability that respiratory particles will be transmitted between participants. Examples: football, wrestling, cheerleading (stunts), dance

Moderate Risk: Sports that involve close, sustained contact, but with protective equipment in place that may reduce the likelihood of respiratory particle transmission between participants OR intermittent close contact OR group sports that use equipment that can't be cleaned between participants. Examples: basketball, volleyball, baseball, softball, soccer, ice hockey, tennis, pole vault, high jump, long jump, 7 on 7 football

Low Risk: Sports that can be done with social distancing or individually with no sharing of equipment or the ability to clean the equipment between uses by competitors. Examples: running events, cross country, throwing events, swimming, golf, weightlifting, sideline cheer.

High/Moderate Risk Sports may move to a Low risk category with non-contact modifications. Team Activities should be limited to individual skill development drills that maintain social distancing.

ENGAGING STAKEHOLDERS

The School District will engage stakeholders by reviewing the Athletic Health and Safety Plan at a public Board meeting. In addition, the Plan will be provided to the local newspaper for publication and placed on the School District website.

COMMUNICATION OF PLANS

The Summary of the Athletic Health and Safety Plan will be posted on the School District website for easy access for the School District community.

SCHOOL CLOSURE PLAN

The Superintendent will follow all Guidance from the Governor and PDE regarding school closure, with communication with the Board and local health officials. The Superintendent will modify athletic activities when necessary based upon a series of positive tests.

Primary Point of Contact

Each school entity must designate a primary point of contact with defined roles and responsibilities for health and safety preparedness and response planning for sports-related activities. The point of contact will be responsible for responding to questions related to COVID-19 safety protocols. All parents, student athletes, officials, and coaches must be provided the person's contact information.

Key Strategies, Policies, and Procedures

Use the action plan templates on the following pages to create a thorough plan for each of the requirements outlined in the [Pennsylvania Guidance for All Sports Permitted to Operate During the COVID-19 Disaster Emergency](#).

For each domain of the Athletics Health and Safety Plan, draft a detailed summary describing the key strategies, policies, and procedures your LEA will employ to satisfy the requirements of the domain. The domain summary will serve as the public-facing description of the efforts your LEA will take to ensure health and safety of every stakeholder in your local education community. Thus, the summary should be focused on the key information that staff, students, and families will require to clearly understand your local plan for the phased reopening of schools. Use the key questions to guide your domain summaries.

For each requirement within each domain, document the following:

- **Action Steps under Yellow and Green Phase:** Identify the discrete action steps required to prepare for and implement the requirement under the guidelines outlined for counties in yellow or green. List the discrete action steps for each requirement in sequential order.
- **Lead Individual(s) and Position(s):** List each person responsible for ensuring the action steps are fully planned and the system is prepared for effective implementation.
- **Materials, Resources, and/or Supports Needed:** List any materials, resources, or supports required to implement the requirement.
- **Professional Development (PD) Required:** Identify the training or professional development that will be provided to staff, students, families, and other stakeholders to implement each requirement effectively.

In the following tables, an asterisk (*) denotes a mandatory element of the plan. All other requirements are highly encouraged to the extent possible.

Cleaning, Sanitizing, Disinfecting, and Ventilation

Key Questions

- How will you ensure the athletic facilities are cleaned and ready to safely welcome coaching staff and student athletes?
- How often will you implement cleaning, sanitation, disinfecting, and ventilation protocols/procedures to maintain coaching staff and student athlete safety?
- What protocols will you put in place to clean and disinfect throughout the day?
- Which stakeholders will be trained on cleaning, sanitizing, disinfecting, and ventilation protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?

Summary of Responses to Key Questions:

| Requirements | Action Steps under Yellow and Green Phase | Lead Individual and Position | Materials, Resources, and/or Supports Needed | PD Required (Y/N) |

Social Distancing and Other Safety Protocols

Key Questions

- How will conditioning, practice, and game spaces be organized and scheduled to mitigate spread?
- How will you group student athletes with coaches to limit the number of individuals who come into contact with one another throughout the conditioning, practices, meetings, team meals, games, etc.?

- What policies and procedures will govern use of other communal spaces (locker rooms, restrooms)?
- How will you utilize outdoor space to meet social distancing requirements?
- What hygiene routines will be implemented?
- How will you adjust student transportation to meet social distancing requirements?
- How will social distancing and other safety protocols vary based on age ranges?
- Which stakeholders will be trained on social distancing and other safety protocols? When and how will the training be provided?

Monitoring Student Athletes and Staff Health

Key Questions

- How will you monitor student athletes, coaches, and others who interact with each other to ensure they are healthy and not exhibiting signs of illness?
- Who will be responsible for monitoring?
- Where will the monitoring take place?
- When and how frequently will the monitoring take place?
- What is the policy for quarantine or isolation if a coach, student athlete, or other member of the school community becomes ill or has been exposed to an individual confirmed positive for COVID-19? What conditions will a coach or student athlete confirmed to have COVID-19 need to meet to safely return to sports activities? Which staff will be responsible for making decisions regarding quarantine or isolation requirements of coaches or student athletes?

- When and how will families be notified of confirmed coach or student athlete illness or exposure and resulting changes to the local Athletics Health and Safety Plan?
- Which stakeholders will be trained on protocols for monitoring student athlete and staff health? When and how will the training be provided?

Athletics Health and Safety Plan Professional Development

The success of your plan for resuming sports-related activities safely requires all stakeholders to be prepared with the necessary knowledge and skills to implement the plan as intended. For each item that requires staff training, document the following components of your professional learning plan.

- **Topic:** List the content on which the professional development will focus.
- **Audience:** List the stakeholder group(s) who will participate in the learning activity.
- **Lead Person and Position:** List the person or organization that will provide the professional learning.
- **Session Format:** List the strategy/format that will be utilized to facilitate professional learning.
- **Materials, Resources, and or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Start Date:** Enter the date on which the first professional learning activity for the topic will be offered.
- **Completion Date:** Enter the date on which the last professional learning activity for the topic will be offered.

Athletics Health and Safety Plan Communications

Timely and effective family and caregiver communication about sports-related health and safety protocols and schedules will be critical. Schools should be particularly mindful that frequent communications are accessible in non-English languages and to all caregivers (this is particularly important for children residing with grandparents or other kin or foster caregivers). Additionally, school entities should establish and maintain ongoing communication with local and state authorities to determine current mitigation levels in your community.

Athletics Health and Safety Plan Summary Crawford Central School District

Anticipated Launch Date: July 1, 2020

Use these summary tables to provide your local education community with a detailed overview of your Athletics Health and Safety Plan. School entities are required to post this summary on their website. To complete the summary, copy and paste the domain summaries from the Athletics Health and Safety Plan tables above.

Facilities Cleaning, Sanitizing, Disinfecting, and Ventilation

| Requirement(s) | Strategies, Policies and Procedures |
|--|---|
| *Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e. restrooms, drinking fountains, locker rooms and transportation) | Will utilize all appropriate CDC and DOH guidelines to clean facilities regularly, will provide training to appropriate staff to do the same. |

Social Distancing and Other Safety Protocols

| Requirement(s) | Strategies, Policies and Procedures |
|----------------|-------------------------------------|
| | |

| | |
|---|---|
| *Protocols for social distancing student athletes and staff throughout all activities, to the maximum extent feasible | Will keep separation between appropriate groups on athletic teams to the extent possible by allowing them to practice in different areas of athletic facilities. Will use group practices where applicable. |
| *Procedures for serving food at events including team meetings and meals | Will follow all guidelines from the CDC and PA DOH |
| *Hygiene practices for student athletes and staff including the manner and frequency of hand-washing and other best practices | Will encourage handwashing, use of hand sanitizer, personal clothing and water bottles. |
| *Posting signs, in highly visible locations, that promote everyday protective measures, and how to stop the spread of germs | Signs will be posed in all areas of the School District that inform on CDC and DOH protocols. |
| Identifying and restricting non-essential visitors and volunteers | At the recommendation of the District and the approval of the Board of Directors of CCSD the Athletic Plan will be revised to meet the guidance set forth by the current law of not to exceed 25% capacity of all venues/facilities. |
| Limiting the sharing of materials and equipment among student athletes | Student athletes will each have their own practice equipment and jerseys, as well as personal water bottles. All equipment will be thoroughly cleaned and sanitized subsequent to each event. |
| Staggering the use of communal spaces (i.e. locker rooms, weight rooms, etc.) | Weight room will be closed during Yellow Phase. Athletes will maintain social distancing while practicing, only one team will use an athletic facility at a time. |
| Adjusting transportation schedules and practices to create social distance between students | Additional buses and hotel rooms will be provided during phases if necessary, to encourage social distancing |
| Limiting the number of individuals in athletic activity spaces and interactions between groups of student athletes | Teams will be broken into groups during practices in order to facilitate social distancing. |
| Other social distancing and safety practices | N/A |
